

# *Straight Shooter*

## SA-5 Servo Attaching Feeder

***Precision attaching in a small package!***

**Finally, a compact, affordable attaching solution that fits your budget *AND* your transport.**

The Straight Shooter SA-5 attaching feeder was designed to fit where other attaching feeders won't. Its small footprint and simple design allow you to use it on a wide variety of transport bases.

Servo technology offers precise positioning and the color touch screen gives the operator complete control of the job settings.

The SA-5 can attach 1 or 2 cards, magnets, or other media at speeds up to 25,000 per hour! (media dependent)

Utilizing our patented *Buckle Separation™* technology, the SA-5 feeds a wide variety of materials easily and our re-positional feed belts offer unmatched flexibility!

Feeders for mailing,  
printing and packaging

## **SA-5 Servo**

*One or two card attaching*

*Batch counting for packaging*

*Turn-key package includes feeder, controller, touch screen, encoder and start photo!*

## Finally, an attaching feeder for the rest of us!

Straight Shooter is known for innovation and the SA-5 continues the tradition. Until now, servo attaching feeders have been oversized, complicated and EXPENSIVE! *Not the SA-5!*

The SA-5 is compact, easy to use and affordable. Now you don't have to be an engineer to handle attaching! Our color touch screen and patented features make precision attaching easier than ever.

### **Straight Shooter makes high speed attaching easier with these exclusive features:**

- \* **Re-positional Feed Belts** -- Lets you customize the feeder for every piece!
- \* **Independently Adjustable Separators** - Patented Buckle Separation reduces jams!
- \* **Easy to service** - ALL belts can be replaced in minutes!
- \* **Compact size** – Fits where others won't!
- \* **Adjustable angle acceleration table**
- \* **Simple set up for 1 or 2 cards**
- \* **High speed batch counting**
- \* **Intuitive, easy to use**
- \* **Attaches dual cards as close together as you want!**

### Turn-key package includes:

**Color touch screen**  
**High speed servo motor**  
**Controller for servo system**  
**Start and stop photo eyes**  
**Encoder with wheel and bracket**  
**Knock down roller assembly**

### Specifications

#### Media Handling:

Width: 2" minimum up to 5" maximum  
Length: 2" minimum up to 12" maximum  
Thickness: Single sheet up to 1/4" thick  
Speeds: Up to 25,000 single cards attached per hour  
Placement accuracy: 1/8" plus or minus\*  
\*Operator, media and transport dependent

#### Power:

120 vac, 5 amp standard, (240 optional)  
Miss output standard. (used to stop transport base or host feeder on feeder out condition)

Dimensions: 8" wide x 17" long (excluding knock down rollers)
