ACCUFAST®

The ACCUFAST ET

The ACCUFAST ET is the next generation of table top tabber. The ET is designed to handle everything a mailer throws at it, from edge tabbing or top tabbing of self mailers to the specialty tabs needed to meet booklet requirements.

Different formats are selected with the twist of a knob and tabs are automatically placed per the USPS specifications. The ET is simple to use and more versatile than any tabber in its class.

The ACCUFAST ET Mail Tabber with ACCUFAST HDF Feeder

Addresser Based Systems

ACCUFAST ET

- applies multiple tabs per piece per USPS Spec.
- tabs 20,000 pieces per hour
- tabs pieces 5.5" to 12" wide, from card stock to booklets
- runs a variety of 1 and 1.5 inch tabs: paper & clear, circles & rectangles, on rolls or fan fold.
- built-in waste take-up spool on each head.
- weighs 60 pounds
- measures 23" wide x 20" long x 19" high
- uses 115 volts 4 amps 60 hz or 230 volts 2 amp 50 hz
- goes in-line with ACCUFAST and other table top Labelers, Feeders and Printers
- its outstanding feature is its ability to run both 1 and 1.5 inch tabs at the flick of a switch, meeting USPS specs.
