

HD-20 series

Heavy Duty Feeders

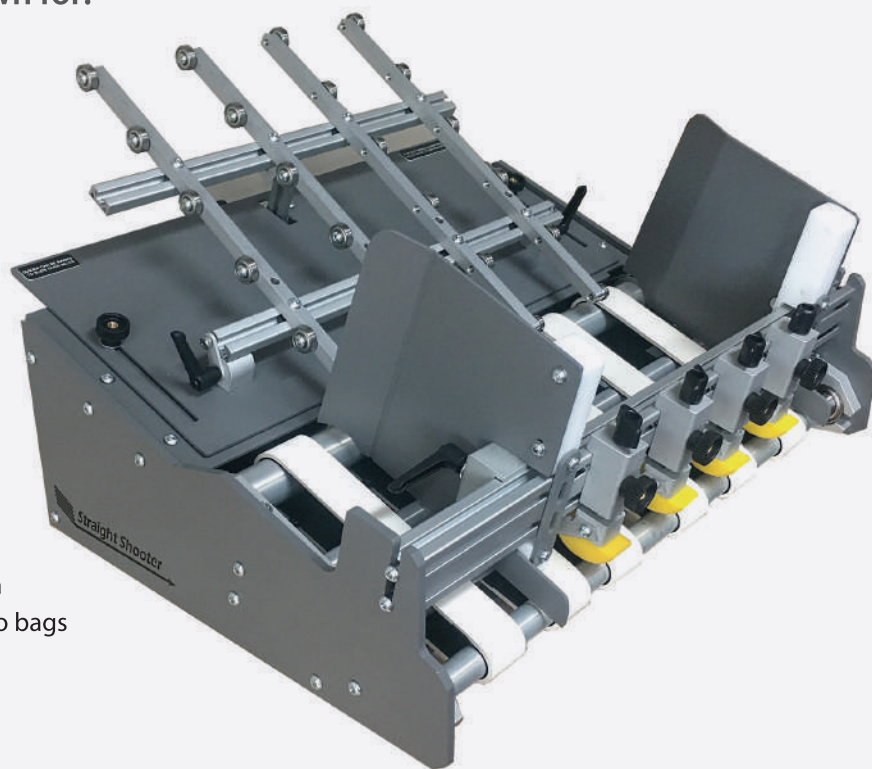

The new HD-20 series takes friction feeding to a new level!

Designed for heavy use, the HD-20 includes all the features Straight Shooter is known for:

- * Buckle Separation™ for versatility
- * Extended paper guides for straight feeding
- * Repositionable feed belts
- * Independently adjustable separators
- * Simple 5 minute belt changes
- * Quick, tool-less setup

Now all these features are available in a heavy duty machine that is built to last. With robust shafts and bearings, and substantial drive train components and feed belts, the HD-20 continuous feeder is the new affordable, easy to use feeder.

The HD-20 is great for feeding a wide variety of media sizes from small envelopes and cards, all the way up to bags and boxes up to 20" wide and over 36" long!
